CLOVIS AREA TRANSITION PROGRAM

Guiding Principles

Education is a Partnership

The goal of the Clovis Area Transition Team is to be a bridge connecting students and families with their school, community, and to life.

All Means ALL!

The Clovis Area Transition Program works to ensure **all** students reach their potential in mind, body, and spirit by providing them and their families with instrumental, timely supports and resources, facilitating their successful navigation through the educational system and life's roadblocks.

Continually Improving

As the Transition Program we are always looking for new, innovative ways to support students while reminding ourselves of Clovis Unified's three aims:

- Maximizing achievements for all students
- Operating with increasing efficiency & effectiveness
- Developing, sustaining, and valuing a quality workforce

What is the Transition Program?

The Transition Program is part of a districtwide effort to improve support for students emotionally, socially, and academically by:

- **Developing positive relationships** with students and parents
- **Providing services and resources** for students to reach their full potential and pursue their goals
- **Creating a sustainable support system** for our participating students from elementary school through high school.

How can my student get support?

Site principals, counselors, learning directors and other administrators nominate students for the Transition Program as needs arise or become known. If your student has not yet been nominated and you would like them to be, contact your student's site administration team to have them referred.

It is important to note that despite the administration's nomination students participate in the Transition Program voluntarily. This is an intentional support program, designed to provide an additional layer of support to our students.
